

## Magic Valley Regional Airport

*The Joslin Field, Magic Valley Regional Airport* is a non-hub commercial service airport. The airport is operated, maintained and developed by the city and county of Twin Falls, Idaho.

The Joslin Field, Magic Valley Regional Airport (TWF) serves Idaho's Magic Valley and south central Idaho through all facets of aviation: general aviation, commercial airlines, military and air cargo. The airport is located in Twin Falls, Idaho, approximately 130 miles east of Boise, Idaho and just minutes away from the College of Southern Idaho and the Snake River Canyon.

The airport is currently served by scheduled passenger service to Salt Lake City by SkyWest Airlines, a Delta Connection partner with four daily flights.

The airport is located approximately three miles south of downtown Twin Falls, situated on approximately 1,800 acres of land and is located within the county of Twin Falls, Idaho. The airport has two runways. The primary instrument runway is 8703 ft. in length by 150 ft. wide.
